THE NATIONAL CAPITAL

Indians and Appointments--Judge Turpie, it is Reported, Has Been Offered a Position.

The Senate Extra Session and the Committees--A Well Attended Church.

OFFICES WANTED.

Indians Looking After Appointments.

Special to the Sentinel.

WASHINGTON, March 8.--Judge Holman is urging Dr. Hunter for the Internal Revenue Collectorship for Lawrenceburg District. It is said Judge Holman has visited the President, and that the appointment will likely be made soon. Congressman Lamb announces that he is not a candidate for Commissioner of Patents, and would not have the position if he could get it without effort. He wants to be successor to United States District Attorney Holstein, that and nothing else. An Indianian who called upon President Cleveland yesterday in regard to an appointment to a Territorial office, was informed that no one will be appointed to office in a Territory who is not a resident of the Territory in which the office is located. Hiram Jones has been promoted in the Land Office to a \$1,000 from a \$1,400 position, and James H. Williams has been reduced in the Postoffice Department from a \$1,400 to a \$1,200 position. Both are from Indiana.

Marion E. Fraizer, of Indianapolis, arrived here today.

Turpie Offered the Commissioner of General Land Office.

Special to the Sentinel.

WASHINGTON, March 8.--It is stated to-night that a telegram has been sent to Judge Turpie, at Indianapolis, at the direction of Secretary Lamar, tendering him the position of Commissioner of the General Land Office. It is an influential place and pays \$5,000 a year. Lamar wants Turpie, but in the event he does not accept, it is understood George W. Julian, who is now here, will be appointed.

PRESENT SESSION OF THE SENATE.

Speculation as to the Length of Its Session--The Organization of the Senate Committees Occupying the Attention of Senators.

WASHINGTON, March 8.--No trustworthy opinion regarding the length of the session of the Senate can be formed at this time. A considerable number of nominations are expected to-morrow, and should the new Cabinet ministers be able to determine the personnel of their staffs without delay, the work of the session may be brought to an end within a fortnight, but the probability is recognized that they may require a few days to become acquainted with the men about them before making all the changes they may desire.

The intention recently entertained by members of the Committee on Foreign Relations of bringing forward new treaties during the session is now in suspension, owing to the wish of many Senators to get away as early as possible. It is thought, moreover, that the new administration may, as it has the right to do, recall for amendment some or all of the more important treaties. On the other hand, it is said to be in contemplation of bringing up the Nicaraguan treaty during this session, not for the purpose of pressing it to the point of ratification, but to discuss in open session the relationship of the Clayton-Bulwer treaty to the canal question. Should this be done, it will be a view to getting the judgment of the country upon the whole matter before the meeting of Congress in December.

The organization of the Senate committees, the attention of Senators at present, involves more difficulties than usual, and therefore may not be decided for several days, although a caucus on committees by both parties have had the matter under consideration since last Thursday. There are five vacant Chairmanships, including those of the Committees on Education and Labor and Military Affairs, heretofore filled respectively by Senators Blair and Logan. Senator Blair, it is understood, will be temporarily appointed to fill the vacancy created by the expiration of his term, and it is probable he will retain his Chairmanship. Military Affairs, if filled at all, will probably be filled conditionally, so that General Logan may return to the place should he be re-elected to the Senate. Senator Hoar is second on the list of the Committee on Claims, but holds a more desirable position as Chairman of Claims, and on re-election would hardly be willing to make the exchange. Senator Pike, who has no Chairmanship, stands next and Senator Delph fourth on the list. The Chairmanship of the Committee of Pensions and Post Roads is made vacant by the retirement of Senator Hill. Senator Sawyer, who is second on the list of this committee, holds the Chairmanship of the Committee on Expenditure of Public Money, stand fourth and fifth in membership of this committee. Senator Palmer, it is said, prefers the Chairmanship of the Committee on Fisheries, made vacant by the retirement of Judge Lapham. Senators Sewall and Dawes stand above him on the list, but each hold other Chairmanships, which are equally or more desirable. Senators Hawley, Aldrich, Hale and Conger hold Chairmanships of comparatively unimportant committees, and if willing to assume more responsible positions now vacant, may be assigned to them. Senator Evans' eminence as a lawyer has given rise to the expectation that he will be made a member of the Judiciary Committee should General Logan not be returned. The more important vacancies to be filled by the minority are three upon the Judiciary Committee created by the retirement of Bayard, Garland and

Lamar, and one each upon Commerce, Finance, Indian Affairs, Naval Affairs, and Privileges and Elections.

Obituary--Invitations to New Orleans.

WASHINGTON, March 8.--Brigadier General Dallas B. Sacket, senior Inspector General of the United States Army, died this morning at his residence in this city. Major Burke, Director General of the New Orleans Exposition, announces that the managers have set apart the 7th and 8th of April as "Improvement of Western Waterways Days." Those days will be given to the discussion of what measures are necessary to restate the work of river improvement. Many prominent speakers and orators of the country are expected to be present, and it is hoped the people of the Valley in great numbers will attend. An invitation has been extended to the President of the United States and members of the Cabinet, United States Senators, Representatives, Governors of States and Mayors of cities to participate in the movement.

Disappointed Worshipers.

WASHINGTON, March 8.--President Cleveland remained quietly at the White House today, much to the disappointment of the largest congregation that has assembled there for public worship, at the New York Avenue Presbyterian Church. The edifice was crowded in every part. Chairs were brought in and placed in the aisles, and every foot of standing room was made available. The immense assemblage listened to an excellent discourse, but the countenances of many, as they emerged from the church, showed but too plainly that the absence of the President had left an aching void, which even an eloquent sermon had not completely filled.

GENERAL GRANT.

What the Tribune and World Say About His Condition.

NEW YORK, March 8.--General Grant passed a restless night, but slept from 5 to 11 a.m. This afternoon Dr. Barker and Douglas, together with Dr. Shady, held a consultation, and announce the patient generally better.

NEW YORK, March 8.--The Tribune of Monday says the condition of General Grant has been noticeable characteristics of the neighborhood where General Grant lives, gave way yesterday to the quietness of Sunday, and the members of his family were disturbed only at intervals by the ringing of the front bell, and anxious inquiry as to the general's condition. Under the present state of affairs his body is not nourished sufficiently to replace the enormous waste that is taking place constantly. Though he takes some nourishment daily in the shape of concentrated food, yet on account of the depressed state of his digestive organs, it is not properly assimilated, and much of the strength that should be derived from the food is lost.

From the World to-day: "A rumor is current that the general's ailment is a complication of troubles. It is even hinted that the sinking spells to which he has been subject for some time, and which leave him in a weak condition, are produced by trouble with his heart. His sudden abstinence from tobacco is said to have developed this feature of his malady, if it was not one of the contributing causes to produce it. It is reported that at the General's urgent request Rev. Dr. John P. Newman, formerly with the Madison Avenue Presbyterian Church, now in California, has been written to concerning the former's condition, and has been asked to visit Grant's family as soon as possible."

THE FIRE RECORD.

Disastrous Fire in Missouri--The County Records Totally Destroyed.

St. Louis, March 8.--The Opera-house block of Albany, Mo., one of the best business buildings in Northwest Missouri, burned early Saturday morning, entailing a loss of from \$50,000 to \$75,000. The principal losers are C. Linn, dry goods \$22,000 on stock; S. T. Moore, grocery, \$9,000; Henry Price, A. W. Humber, R. A. Scarborough, \$40,000 each on buildings. In addition to the business losses, all the county records since the county was organized, including those of the Circuit Court, Probate Court and Probate Court, were totally destroyed. Insurance about \$30,000.

Killed by a Falling Ladder.

Boston, March 8.--A fire occurred this evening in a five-story brick building, at India street and India Square, occupied by J. Graham, a junk dealer. Graham carried a heavy paper stock, which was nearly ruined. His loss is considerable. During the fire six fifty-foot ladder fell, killing James W. Swisher, a member of the Protective Department. Swisher was at one time a Lieutenant in the San Francisco Fire Department.

Saw Mill and Machinery Burned.

WILLIAMSPORT, Pa., March 8.--The large saw mill of T. O. Thompson has burned, with two engines and other valuable machinery. Loss, \$40,000; insurance, \$20,000.

Arrested at a Cooking Main.

CHICAGO, March 8.--Last night about 200 of the sporting fraternity went to the suburban town of Blue Island, to witness a cooking main, for which a large number of birds had been provided, and it was intended to continue the fighting throughout the night and to day, when it was expected the crowd would be increased to 1,000. After the pit was set the Deputy Sheriff interfered, but the crowd took him and locked him up in one of the rooms of the building, and proceeded with the fighting. About midnight twenty policemen from this city descended on the place and arrested thirty of the participants and brought them to this city this morning.

Paddy Ryan, the pugilist, was among the spectators, but was not arrested.

A Defaulting County Treasurer.

WILMINGTON, O., March 8.--When L. D. Reed, County Treasurer, went out of office he was known to be a defaulter to the amount of about \$20,000. It is now ascertained that the amount is \$35,000. His successor having given Reed a receipt before the last discovery was made, now fears that he may be liable for Reed's misdoing.

FROM THE OLD WORLD.

Russian Occupation of Afghan Territory--The Frontier Question Growing More Serious Hourly.

Reports Concerning Wolsey's Health Corrected--Sunday Recreations to be Discussed.

ENGLAND AND RUSSIA.

The Aspect of Affairs on the Russo-Afghan Frontier.

LONDON, March 8.--A St. Louis Globe-Democrat correspondent says that despite the protestations of the Russian Embassy there is no danger of an open rupture between Russia and England, Englishmen of very conservative tendencies maintain that the Afghan situation is really complicated and serious. M. D. Giers, the Russian Foreign Minister, has been prompt and explicit in his statement of the Russian attitude. The dispatches he sent to the British Foreign Office yesterday, while they affirm that instructions have been sent, at England's request, to the Russian Commanders to avoid all action likely to provoke the Afghans into hostilities, plainly decline to accede to England's other request that the Russian troops be withdrawn from their present advanced positions. These posts are almost within rifle shot of the advanced posts maintained by the Afghans. The latter are notoriously aggressive. They are said to have become actually impatient under the encouragement given them by England's recent advice to hold their ground. It would be the easiest thing in the world for Russian intrigue to secure such an offensive act on the part of the Afghans as would justify a "battle of defense." Such an engagement would initiate open warfare in Afghanistan, and if that will really serve the purpose of Russia, already on the ground, it is in her power to have it brought about at any moment. Baron De Staal, the Russian Ambassador to England, in an interview said: "Mr. Gladstone has for years urged the cause of peace. Why should Russia and England quarrel? Russia has no quarrel with where she now is. Russia is perfectly willing that England should, if she so desires, annex Afghanistan. If she should do so, then Russia and England would be neighbors. As neighbors they could better, because jointly, engage in the task of civilizing the vast Asian world."

Peace or War for Russia to Decide.

LONDON, March 8.--The Daily News states that there is a constant exchange of dispatches between the English and Russian Governments. "Although there is a possibility of a peaceful solution," says the News, "the condition of affairs is still critical. The British Government's demands that the Russians retire from the Afghan frontier, whether put in the form of an ultimatum or not, are final. The choice of peace or war lies in the hands of Russian statesmen."

SUDAN AFFAIRS.

General Wolsey's Health.

LONDON, March 8.--Lord Hartington says that General Wolsey has telegraphed, in reply to a telegram of inquiry from the War Office, that his eyesight is unimpaired; that his health is excellent, and that he had no intention of going to Cairo, Cyprus, or anywhere else until he has first gone to Khartoum. The croakers in the military clubs predict that there will be fearful mortality among the British troops in the Sudan during the coming summer, and they point out in support of their prediction that typhoid fever is already raging at Khartoum. The medical experts assert, however, that there is no reason why the troops should not remain in good health if the stations for their encampment are wisely selected, at suitable points along the Nile, and if the men are given plenty of recreation and exercise during the comparatively cool hours of the morning and evening. A society is now forming in London, under the patronage of several members of the nobility, for the purpose of supplying the soldiers with books, newspapers, apparatus for field sports and material for amateur theatricals.

Ordered an Advance on Korti.

SUKKIM, March 8.--A reconnaissance today showed 10,000 of the enemy in different localities. An Arabian paper says the Mahdi has sent his Lieutenant at Metemneh a reward of \$5,000 for his bravery, and has ordered him to advance upon Korti.

Brackenbury Bids his Troops Farewell.

LONDON, March 8.--A dispatch from Merw says General Brackenbury to day bade his troops farewell. He thanked Colonel Denison and the Canadian boatmen for their courage and energy in sharing the dangers of the campaign.

GENERAL FOREIGN NEWS.

The Prince of Wales' Irish Visit.

LONDON, March 8.--The Prince of Wales, it is now generally believed, will meet with a cool reception upon the occasion of his visit to Dublin next month. Many fear that he will be even insulted during his progress through the country. The retreat made by Lord Mayor John O'Connor from his first attitude of apparent opposition to the visit has been interpreted the great majority of the National League, among whom he had been recognized as a strong and bold leader previous to the episode. The Lord Mayor, however, firmly maintains his present position that he owes at least official courtesy to the royal visitor during the period of his stay in the Irish capital. No fault finding and no threats on the part of his former political colleagues seem to have any effect on his present determination to welcome the Prince. All this tends to make the Nationalists more determined in their declared purpose to offend the Lord Mayor's obsequiousness, as it is called, by conduct which shall plainly convey to his royal highness that his presence in Ireland is not desired by them for any purpose whatever. They are straining now

to make such demonstration of disloyalty as will 'teach England that the disloyalists are in the majority in Ireland.'

Sunday as a Day of Healthful Recreation. LONDON, March 8.--The claims of the London people to use Sunday as a day of healthful recreation are at last about to be recognized in this city, where Sunday usually drives the East End people to the West End swells to the country or the clubs. The refusal of the treasury to supply the funds asked for by the trustees of the British Museum in order that the Natural History Museum might be opened on Sundays has stimulated the zeal of the friends of Sunday reform. The Duke of Westminster and a committee of the Sunday Society have issued an invitation to a national conference at St. James' Hall with the authorities and officers of museums, art galleries and libraries for the purpose of directing the attention of Parliament to the results which have attended the Sunday opening of museums, art galleries and libraries in the United Kingdom. If this conference meets with success, we may yet see our gloomy Sunday made to minister to the education of the whole people.

A Beleaguered Garrison Relieved.

PARIS, March 8.--General Brierre De Lisle, the French commander in Tonquin, telegraphs that he has relieved the beleaguered garrison at Thuyenquan. He says: "We arrived on the 3d inst. at Thuyenquan. The Black Flags and Yunnan Army had occupied the pass, the sides of which are inaccessible, and built forts with three lines of trenches before Duoc. The fighting was severe, and our troops behaved more admirably than ever. The enemy raised the siege of Thuyenquan yesterday evening, the French garrison having fought eighteen days. After the first breach in the body of the fort, the garrison sustained seven assaults and caused immense loss to the enemy. This siege should be counted among the most brilliant pages of our history. The garrison Miralieu actively assisted in the defense of Thuyenquan. General Negrier's column pushed rapidly northward since the capture of Langson. He has now destroyed the line of forts which guarded the Chinese frontier and has blown up the fortifications known as the Gate to China."

Lord Durham's Divorce.

LONDON, March 8.--In the suit for divorce brought by the young Earl of Durham against his wife, nee Milner, granddaughter of the Archbishop of Armagh, on the ground of her alleged insanity, judgment will be decreed next Tuesday. It is generally believed that the application for nullification of the marriage will be refused, because the plaintiff has not sufficiently established the claim that Miss Milner was insane at the time of marriage.

Afghan and Russian Troops--Eugenie III.

LONDON, March 8.--Orders have been sent to Sir Peter Lumsden, the British Special Commissioner on the Afghan frontier question, to direct the Afghans to evacuate Pendjen on the withdrawal of the Russian forces from Akrobat. Baron Staal, the Russian Ambassador, promises the Russian troops shall retire.

Ex-Emperor Eugenie is seriously ill from a nervous shock by being thrown from her carriage at Farnborough on the 2d inst.

Call the Speech an Apology.

BERLIN, March 8.--The North German Gazette and other papers speak of Granville's speech in the Lords on Friday as an apology. The majority of the papers think the speech will terminate the present strained relations between England and Germany. Bismarck is confined to his house with rheumatic ailment.

Protest Against Rice Being Contraband.

BERLIN, March 8.--The Chamber of Commerce at Kiel and a number of merchants of Hamburg and Bremen have sent a protest to Bismarck against the French Government declaring rice contraband of war. Bismarck will not take action until a German vessel is seized.

Herbert Bismarck's Visit to London.

BERLIN, March 8.--The North German Gazette denies that Herbert Bismarck's visit to London is connected with the Russo-Afghan frontier question. It says the difficulty between England and Russia is not acute enough to require the intervention of a third party.

Lord Mayor O'Connor Hissed.

DEUBLIN, March 8.--While Lord Mayor O'Connor was at the railway station to receive the American Deputation with the remains of Rev. Dr. Cahill, he was vigorously hissed and hooted at by a crowd of 8,000 persons.

Looks Like War.

VIENNA, March 8.--The Governor of the Caucasus has arrived at St. Petersburg to attend the staff conferences on the military movements in Central Asia, which, it is reported, has resolved to send an army of 30,000 men from Baku.

The Chinese Claim a Victory.

HONG KONG, March 8.--The Chinese Government is preparing to resume offensive operations in Tonquin. They claim a victory at Thuyenquin.

The Trappist Trial.

PARIS, March 8.--The trial of the Trappist Monk, Gamahut, for the murder of his mother at Ballerich, will begin to-morrow. Gamahut has confessed his guilt.

Running Night and Day.

LONDON, March 8.--The Royal Arsenal at Woolwich is run to its full capacity, night and day, to enable them to turn out 2,500,000 cartridges per week.

Officially Notified.

DUBLIN, March 8.--The Lord Mayor of Dublin has been officially notified the Prince of Wales will arrive at Kingstown on the 8th of April.

Preparing to Transport Troops.

CALCUTTA, March 8.--All the preparations for the transportation of troops by railway, in the event of war, are rapidly maturing.

Will Pierce the Simpson.

GENEVA, March 8.--A syndicate has subscribed \$10,000,000 to expedite the piercing of the Simpson Mountain.

THE STRIKE GROWING.

Officers of the Roads Say the Railroad Strike is No Inconvenience, Yet It Keeps Getting Worse.

It Looks Now as if the Strike Was Assuming Immense Importance.

THE RAILROAD STRIKE.

Strikers Resolve Not to Work Until Wages Are Restored--Officials Say the Road Is Not Inconvenienced.

SPRINGFIELD, Ill., March 8.--The strikers of the Wash Road held a meeting to-day. Several inflammatory speeches were made, and resolutions were passed not to resume work until the recent reduction is restored. The officials, however, declare this will not be done, and say the road is not inconvenienced to any great extent. A prospect of trouble is imminent.

DALLAS, Tex., March 8.--Passenger trains on the Texas Pacific arrived to-day from opposite directions without interruption. Railroad men admit the strike has reached a most critical juncture. A report is current that Governor Ireland has been asked to send troops to break the deadlock along the Texas Pacific, but refused to comply, for the same reasons given for not calling the militia into action to suppress fence cutting. Railroad men claim the State is responsible for the loss arising out of the restraint of their property, as the city of Pittsburgh was for the destruction of property during the riots. The mass of the people in North Texas sympathize with the strikers and their methods. If a necessity arose for immediate action, it is doubtful if the militia would respond.

An agent of the Labor Union passed through Dallas to-day en route to Fort Worth, where they propose to make their headquarters for the circulation of a petition appealing to Congress and the Legislatures of the several States for immediate legislation against untrained capital.

MARSHALL, Tex., March 8.--The strikers last night sent a man to Boyce, La., on the Northern Pacific Road to bring engines from there. He disabled two engines and brought one to Marshall, where the fire was drawn. This puts a stop to shipping freight from Shreveport to New Orleans. Quiet and order still prevail among the strikers.

A special from Longview says all classes of citizens sympathize with the strikers and are rendering them every reasonable assistance. There are but few section men at work, and the risk of passenger travel is thereby increased.

At Denison there is no change in the strike and everything is quiet. The bridge on the Missouri Pacific, near Durant, Ark., was burned last night. The strikers allowed the company to take material to repair the bridge from here.

KANSAS CITY, March 8.--The employees of the mechanical department of the Missouri Pacific and Wash Road at this point, about 150 in number, have resolved to strike to-morrow morning. Their policy, as fore-shadowed, will be the same as that pursued at other points.

PARSONS, Kas., March 8.--No freight trains were allowed to leave on the Missouri Pacific Road to-day. The leaders of the strike say if the terms are not granted by Tuesday noon they will allow nothing but an engine and mail car to move.

FORTWORTH, Tex., March 8.--The situation of the strike here is assuming grave aspects. The solution of the difficulties seems no nearer than several days ago. Ninety per cent. of the population of the city will be indirectly injured by the general stagnation of business, which must result if the strike continues much longer. A committee of five leading citizens, appointed at last night's meeting, held a long consultation this evening with a number of the strikers, but the interview proved fruitless. The strikers refuse to yield a single point. Another freight train from the west was seized, and side-tracked to-day. The strikers are quiet and orderly. A man named Knowlton, the head of the Knights of Labor organization in Texas, is here organizing a branch society. Pursuant to a call from Knowlton a large meeting was held at the Court-house to-night. Many names were signed to the roll of membership. Bankers, lawyers and saloon men were barred from membership or participation. Some of the more timid persons apprehend an outbreak if the strike continues during the coming week.

KANSAS CITY, March 8.--The Times' Athletics, special says: The Missouri Pacific strikers stopped the freight trains to-day, permitting the cattle trains, however, to go through. They state that the freight trains carrying emigrants will not be allowed to pass after to-day. The coal heavers to-day joined the strikers at Sedalia.

PALESTINE, Tex., March 8.--The strikers at another meeting this morning determined to hold out against the recent reduction of wages.

HOUSTON, Tex., March 8.--A mass meeting of railroad employees held to-day was largely attended. Resolutions strongly sympathizing with the strikers along the Gould lines were unanimously adopted. Committees were appointed to solicit subscriptions. Resolutions were also passed asking mechanics and laborers to keep away and not interfere with the workmen interested in the strike. The Gould system has no shops at Houston and no strike exists here.

An Illustration of an Alleged Nephew in Trouble.

VINCENNES, Ind., March 8.--William Woodson, who is in jail at Carmel, Ill., on a charge of attempt to commit rape, claims to be a nephew of General Stonewall Jackson. He disclaims any evil intent in the circumstance on which the charge is based.

Crops in Maryland.

BALTIMORE, March 8.--The Herald will print on Monday full reports from all sections of Maryland, showing the condition of wheat. The roots of growing grain are everywhere injured by the severe weather. It does not appear possible the crops will reach 50 per cent. of an average.

INDICATIONS.

WASHINGTON, March 9--1 a.m.

For the Ohio and Tennessee Valley--Fair and warmer weather, winds becoming variable then shifting to southerly.

For the Upper Lake Region--Warmer weather, southerly winds, falling barometer.
